<b>Capacity</b>	809L
<b>Cooling technology</b>	Triple Cooling, Precise Cooling, Metal Cooling
<b>Convenience features</b>	80 cm Family Hub™ Screen, AI Vision Inside, Bespoke design with Auto Open Door, Dual Auto Ice Maker, FlexZone™ with 5 Convertible Modes

AI Vision Inside

AI Family Hub™+

809L

\*\*20 year warranty is applicable only on AI Inverter Compressor. All products, images, features shown are for representational purpose only, actual may vary. Design, Colour and model as per availability.

## 1 AI Vision Inside\*

Using an inside camera, it detects fresh food items in the refrigerator to help you manage your food. You can view door bin images, get recipe suggestions, or manage 'use by date' by manually setting the date.

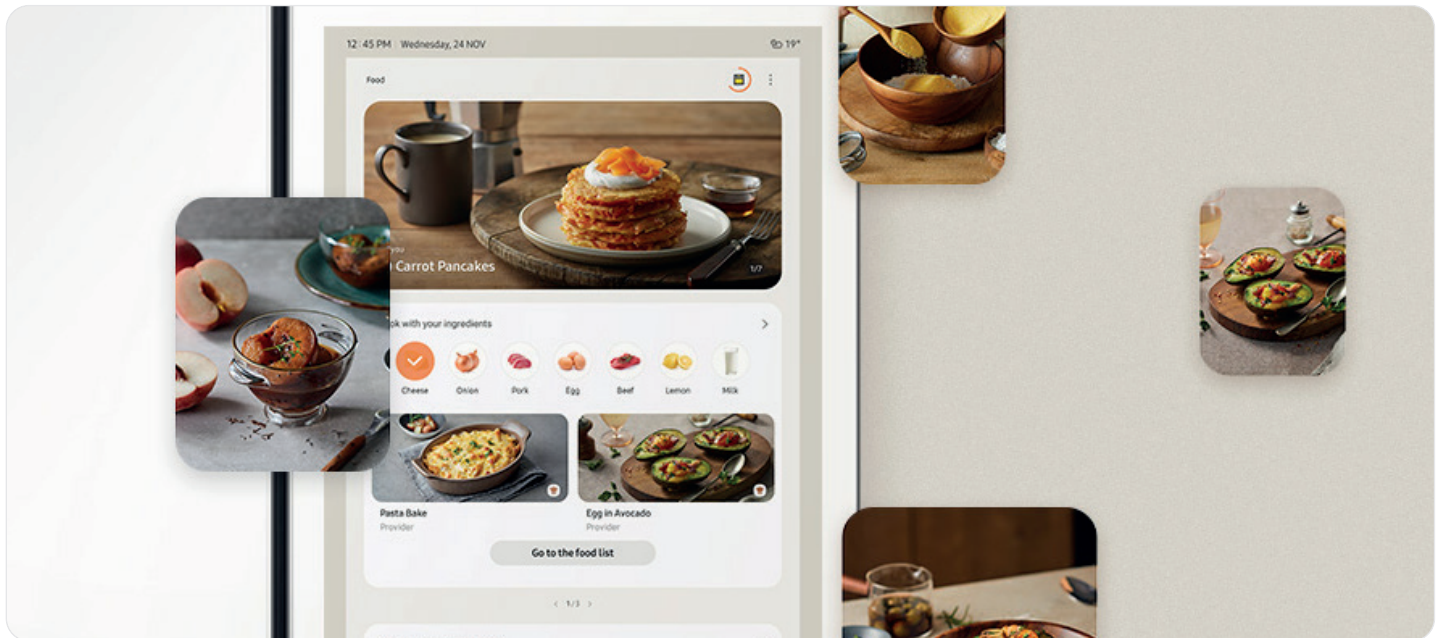

## 2 AI Energy Mode

Save up to 10%^ energy with the AI Energy mode, where the appliance optimises the compressor speed and defrost cycle to meet your preset targets.

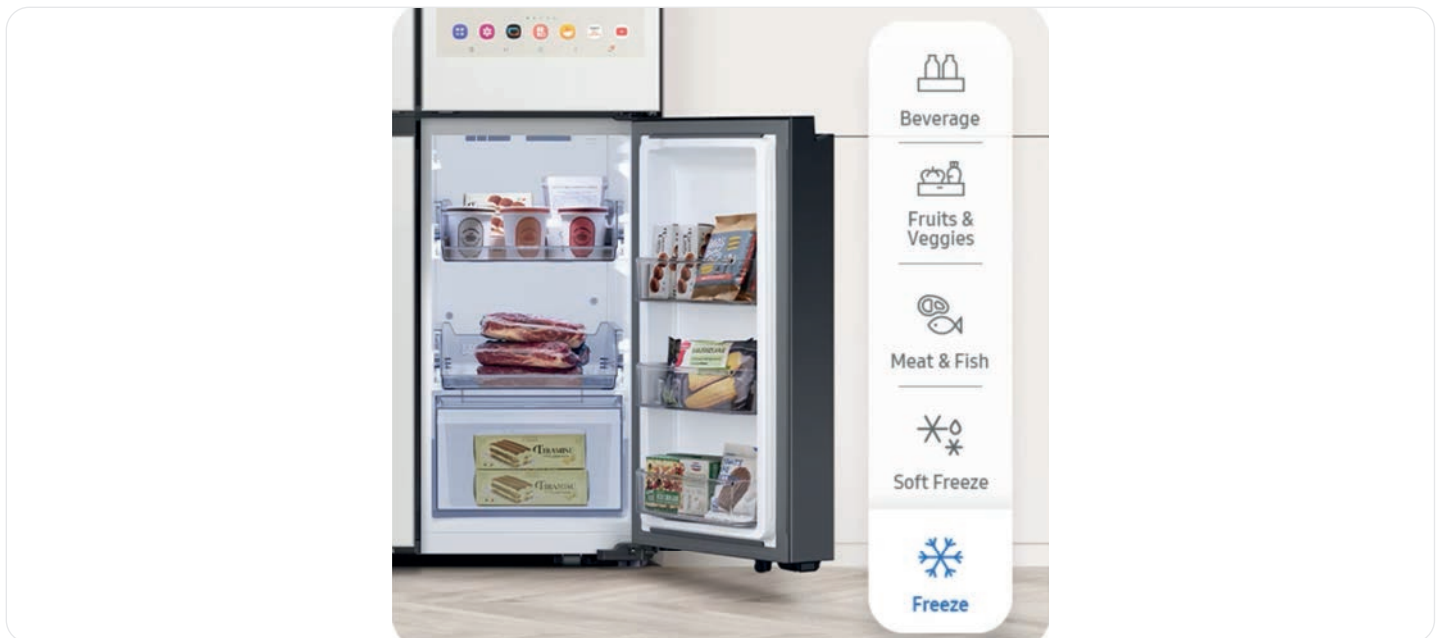

Image simulated. Actual may vary. \*As of April 2024, AI Vision Inside can recognize 33 food items like fresh fruits and veggies. If the food is covered by hand and not recognizable, it may be listed as an unknown item. AI Vision Inside cannot identify or list any food items in the fridge door bins or freezer. Detecting and identifying food items are based on our deep learning model trained using predefined set of data and may yield incomplete or incorrect information. New datasets may be introduced to our learning model from time to time to enhance its accuracy. ^The test results are based on a comparison of the factory setting temperature when using AI Energy mode and without using AI Energy mode. Results may vary depending on the usage conditions and patterns. The SmartThings App is available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. You must use a same log-in account between the devices. SmartThings will display a notification before activating the saving algorithm in both 'Maximum mode' and 'Custom mode'.

### 3 AI Family Hub™+

The 81.3 cm refrigerator screen<sup>^</sup> lets you control other smart home appliances, watch TV, and do more, right from your kitchen through the SmartThings App<sup>#</sup>.

### 4 FlexZone™

Using customised cooling, it keeps food and drinks fresh and tasty for long. The independently-controlled FlexZone™ has five pre-set temperature modes: Freeze (-8~-5°F/-23~-15°C), Soft Freeze (23°F/-5°C), Meat & Fish (30°F/-1°C), Fruits & Veggies (35°F/2°C) and Beverages (39°F/4°C).

Image simulated. Actual may vary. <sup>^</sup>Based on a comparison with RF29A9771\*B model, which has a 54.61 cm screen with a screen area of 128 m. Family Hub™+ has a 81.3 cm screen with a screen area of 2.74 cm, so it is 2.147x larger. <sup>#</sup>Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Depends on connectivity with compatible devices

## 5 Auto Open Door\*

Open your refrigerator door with a feather-light touch and access food, even when your hands are full.

## 7 Ice Ball

The Dual Ice Maker makes Ice Ball that lasts longer than the Cubed Ice.

## 5 Stylishly Unique Design

Enhances your kitchen space in a beautiful and unique way.

## 6 Dual Auto Ice Maker

The dual auto ice maker keeps you prepared for any occasions with two different types of ice.

## 8 Beverage Center

Enjoy refreshingly cool and flavoured water with the built-in dispenser.

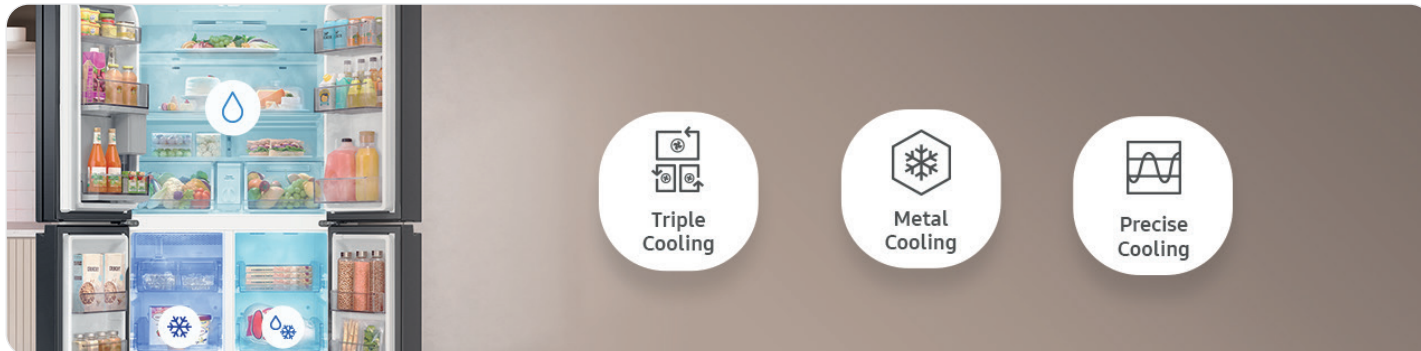

## 10 UV Deodorizer^

Keeps the air in your refrigerator fresh every day with the built-in deodorizing filter. It reduces odour and UV technology self-cleans the filter's surface.

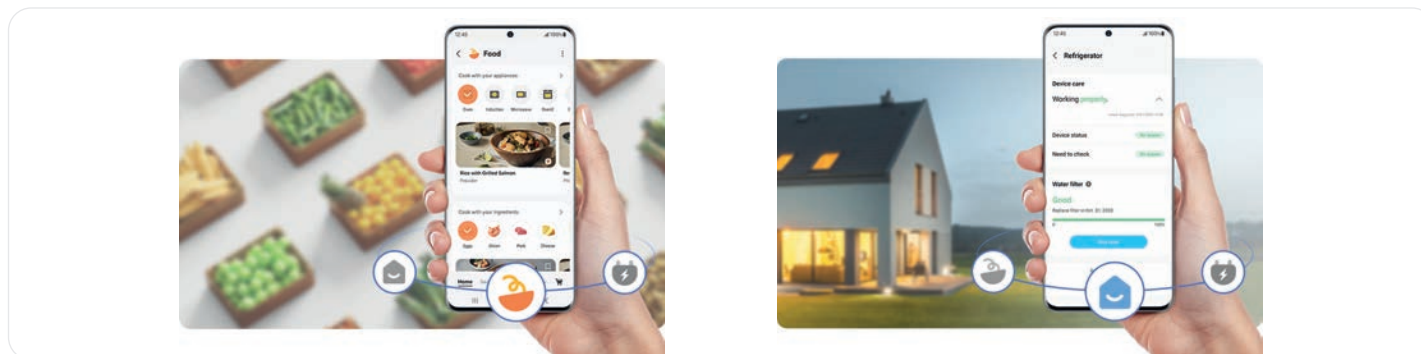

Image simulated. Actual may vary. \*An automatic closing function is not available. The actual open angle of the doors can be different by the installation circumstances and usage conditions like storing heavy items in the door bins. User may need to adjust the refrigerator's installation condition, when the doors are not open properly. Touch sensors can be turned on/off from the control panel/display, and its default setting is off. ^Based on internal testing, it deodorizes more than 90% of the refrigerator.

## 11 Cooling Technologies

Triple Cooling, Metal Cooling and Precise Cooling help in maintaining the inside temperature and preserving the flavour of food.

## 12 SmartThings

With SmartThings app<sup>^</sup>, the control is always in your hands. Manage energy consumption, food, and your devices' health easily.

## 13 Slide-in Shelf

Efficiently creates extra room\* for tall bottles, large containers, and big items like multi-tiered cakes or tower cookers by sliding back to half the width of the fridge.

## 14 AI Inverter Compressor

Optimises cold air production by adjusting motor speed based on ambient temperature, operating mode, and door opening/closing activity, thereby making it energy efficient.

# Line-up: 4-Door French Door Bespoke Family Hub+
