All products, images, features shown are for representational purpose only, actual may vary. Design, colour and model as per availability. [^]Available for specific models through a Wi-Fi update. Energy usage is reduced by optimizing the compressor speed and operation and adjusting the fridge temperature. Results are based on internal testing and may vary depending on the usage condition and patterns. [~]Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Depends on connectivity with compatible devices. [#]Based on testing by third party, it removes up to 99.99% of certain bacteria (Staphylococcus aureus and Escherichia coli). *20 year warranty is applicable only on Digital Inverter Compressor on products sold after December 1, 2022.

1 SmartThings AI Energy Mode

Save up to 10%* on energy with AI Energy mode in SmartThings Energy[^]. It adjusts compressor speed and defrost cycles based on your usage and surroundings, prompting energy savings if your bill exceeds a preset target.***

2 SmartThings Home Care

Monitor and manage your refrigerator effortlessly with SmartThings Home Care[^]. Get real-time alerts, check status and water filter condition, and receive automatic notifications for part replacements or issues, with suggested solutions.

Image simulated. Actual may vary. *The test results are based on a comparison of the factory setting temperature when using AI Energy mode and without using AI Energy mode. Results may vary depending on the usage conditions and patterns. *** SmartThings will display a notification before activating the saving algorithm in both 'Maximum mode' and 'Custom mode'. [^]Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Depends on connectivity with compatible devices.

3 Smart Forward

It updates existing appliances with the latest technology, transforming them into cutting-edge products through over-the-network upgrades.

4 Wi-Fi Enabled

Monitor and manage your refrigerator remotely with the Wi-Fi enabled SmartThings App*. Control cooling modes, adjust temperatures, receive alerts for open doors, and easily diagnose issues.

Image simulated. Actual may vary. *Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Depends on connectivity with compatible devices.

5 Convertible 5-in-1

Enjoy flexible storage with Twin Cooling technology and the Convertible 5-in-1 feature. Easily switch between modes to maximize fresh food storage, save energy*, or use the freezer as additional fridge space.

6 Twin Cooling Plus™

Twin Cooling Plus™ keeps food fresh for longer^ by independently adjusting the fridge and freezer conditions, preserving flavours with separate evaporators and preventing odour mixing.

Image simulated. Actual may vary. *When the refrigeration or freezing functions are in off mode, the temperature of the fridge or freezer remains under 15°C, using low electricity, to prevent mold and odour. The fridge or freezer cannot be powered off independently. Do not store food or beverages in the refrigerator when the refrigeration or freezing functions are in off mode. 15°C is not cool enough to prevent spoilage. ^Based on Internal testing. Individual results may vary.

7 Active Fresh Filter+

Keep your fridge hygienic with the new Active Fresh Filter+. It removes up to 99.99% of certain bacteria** and deodorises air using an activated carbon filter and anti-bacterial mesh.

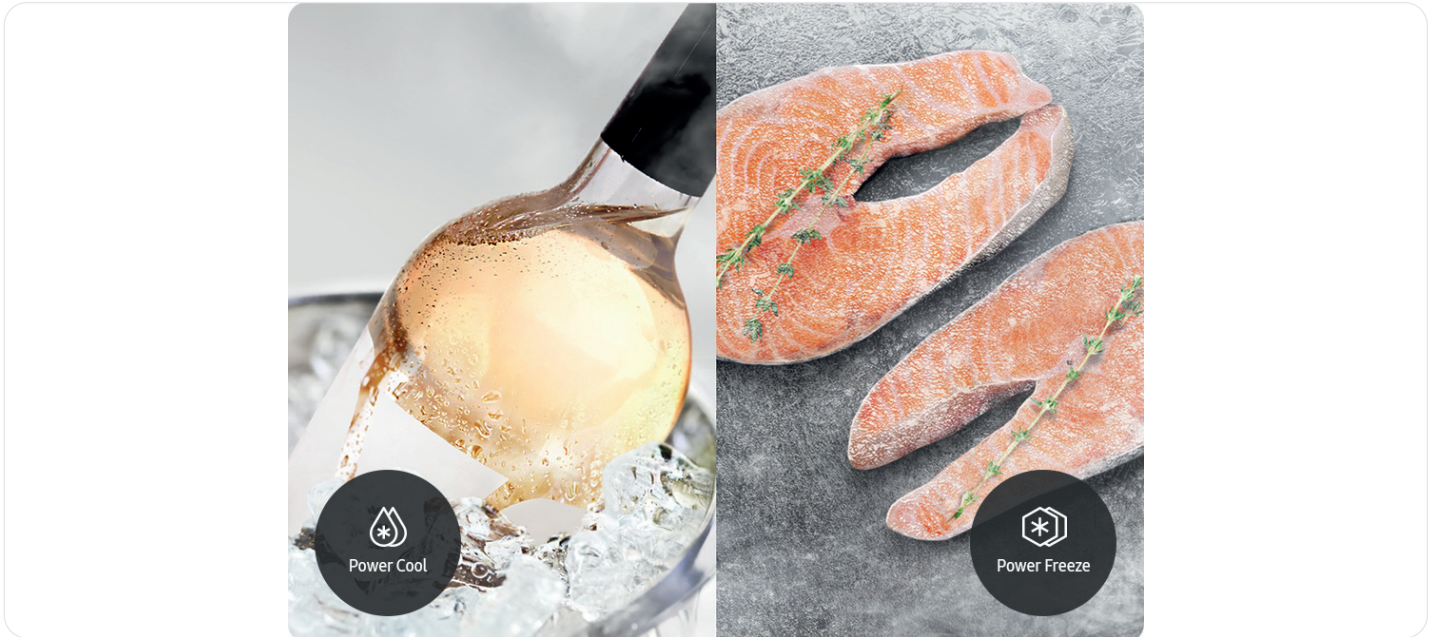

8 BESPOKE Design

Create a uniquely beautiful kitchen with doors available in a wide range of stylish BESPOKE* colours and textures^. Choose your favourites or mix and match colours to perfectly complement your personal taste and interior design.

Image simulated. Actual may vary. **Based on testing by Intertek, it removes up to 99.99% of certain bacteria (Staphylococcus aureus and Escherichia coli). ^Door colour/texture options include: Glass finish in Clean Black, Metal finish in Refined Inox and Black Matt. *Colours as per availability.

9 Power Cool/Power Freeze

Enjoy rapid cooling with Power Cool and Power Freeze. Power Cool quickly chills groceries and drinks, while Power Freeze rapidly freezes food and makes ice for added convenience.
